**About us:** Asthma UK's aim is to stop asthma attacks and cure asthma. We do this by funding world leading research, campaigning for change and providing help and advice to reduce the risk of a life threatening asthma attack.

We work with the 5.4 million people in the UK with asthma- we are small but our impact is big! Last year our expert asthma nurse helpline took 7000 calls, covering a wide range of worries and concerns around asthma. 97% of callers said they would recommend our helpline service.

**How your fundraising could help:**

**£15** could cover the cost for a crucial call to our helpline, enabling people to manage their asthma better and reduce the risk of a fatal attack.

**£30** could pay for an hour's specialist training for a nurse, enabling them to be vital source of information for health professionals, teachers, doctors' practices and the general public.

**£75** could pay for a PhD student for a day, working to better understand asthma.

**£240** could pay for the analysis of the specific chemicals involved in one child's asthma, to understand why steroid treatments do not work for them and to work towards medicines that do.

You'll have a dedicated member of the Community team on hand throughout your fundraising to offer any support or advice you need. We can also supply fundraising materials such as buckets, t-shirts and banners. As well as case studies to show where the funds raised are going/who they are helping.

**About us:** We fight for a future where no child dies of neuroblastoma - an aggressive childhood cancer that takes the life of a child every 10 days in the UK. There are around 100 new cases of neuroblastoma a year in the UK and the average age of diagnosis is just 19 months old. Almost 50% of children who successfully respond to treatment will relapse. When that happens, just 1 in 10 will survive. Our Family Support Service is dedicated to providing specialist support to families affected by neuroblastoma. We are there for them, providing hope, information, and support through their cancer journey, helping them with the everyday emotional and practical struggles they face.

**How your fundraising could help:**

They are the world's most excluded children, who face stigma, discrimination and abuse. No child should be alone. We work with various organisations working on the ground with street children and detached youth. Street children and detached youth in Africa, Asia, South America and the UK.

**How your fundraising could help:**

**£15,000** would directly support 8,000 street children and influence national policy impacting 300,000 street children's lives.

**£100** could train two new street workers. A street worker can reach up to 100 children each month!

**£500** could pay for two workshops with key government stakeholders, to challenge and change dangerous attitudes at the top.

**Fundraising Ideas:**

We are known for our crazy cycle rides to fundraise for our crucial work which students are welcome to join and have an amazing experience. Previous rides have included Château de Fontainebleau to Orleans House Gallery and our current Mallorca end-to-end challenge.

We welcome event ideas from students.

**Support we can offer:**

Although a small charity, we can support you with all sorts of promotional items including newsletters, flyers, posters, postcards, stickers, banners, standard PowerPoints and a supply of T-shirts). Friendship Bracelets (ethically sourced) as a symbol of the relationship of trust the workers establish with children, are also available as a fundraising tool.
